WE'RE HIRING

ML engineer

Remote · US tech wage

You may know us from such studies as

- Coding vs thinking
- Pokémon as a test of generalisation
- Frontier AI sometimes gets worse
- Swarms do not yet raise the roof

OK what do you want?

You'd do experiments like:

- Is Astra's serial depth chained across forward passes?
- Things AIs aren't improving at
- What fraction of benchmark gains are from overfitting and cheating?
- Why are AIs Buddhist?
